

Shared Journeys in Hemostasis: Connecting Patient Voices with Hot Topics in the Hemostasis Laboratory

Join us for a symposium featuring insights from leading Hemostasis experts. They will be joined by two patients who will share their experiences with hemophilia B and Antiphospholipid Syndrome (APS).

Speakers

Steven Pipe, MD
Professor, Depts of Pediatrics and Pathology
University of Michigan
Ann Arbor, MI, USA

Katrien Devreese, MD, PhD
Professor in Hematology/Coagulation, Head of Dept.
of Diagnostic Sciences, Head of Coagulation Lab
Ghent University Hospital,
Ghent, Belgium

Tracye Hamler
Patient and Advocate, Hemophilia B
Women's Empowerment Strategist
Atlanta, GA, USA

Sheryl Chan
Patient and Advocate, APS
Web Developer and Health Writer
Singapore

Session Objectives

Hemophilia: Advances in Management and Laboratory Impact

- Describe Hemophilia A and B
- Discuss the evolution of hemophilia diagnosis and treatment
- Review the impact of emerging hemophilia treatments for patients, clinicians, and laboratorians

APS: Laboratory Testing Recommendations

- Review recent guidance updates on the classification and diagnosis of APS
- Describe laboratory-testing algorithms for APS diagnosis
- Understand preanalytical and analytical challenges in APS laboratory testing
