

Managing Hemostasis in Cardiac Surgery: The Patient Journey From Pre-Operative to Recovery

Our speakers will discuss complex cardiac surgical cases, and best practices for improving patient safety, using a bleeding management strategy. Strategies to identify bleeding risk will also be discussed.

Upon entering the virtual workshop, select one of our two speakers, below.

Speakers

Fabrizio Monaco, MD

Head of Cardiac and Vascular Anesthesia
San Raffaele University Hospital
Milan, Italy

Ian James Welsby, MD

Professor of Anesthesiology and Critical Care
Professor of Medicine (Hematology)
Co-Director of Cardiothoracic Surgical ICU
Duke University School of Medicine
Durham, NC, USA

Objectives

- Review patient bleeding management in complex cardiac surgery, using clinical cases
- Identify pre-operative strategies to improve bleeding risk, including assessment of residual antiplatelet therapy
- Discuss best practices for managing hemostasis with viscoelastic testing

*To accommodate time zones around the world, this program is offered at multiple times.
